Subject: URGENT ACTION NEEDED - UK RESIDENT HAS SCAMMED US
Importance: High

Scotland yard:

The attached document gives the address of a man who has scammed a friend of mine for almost \$3000. It was about Bitcoin software and somehow he has hacked into my friend's account and removed the funds. I am providing all the information below with screen captures of the movement of the funds. The software was for generating Bitcoins which my friend paid for \$800 and called Bitcoin Generator. Then when we got the software this guy said he needed to test it and asked for another document which may have given him access to an account with \$1800 in it (8.1 Bitcoins). When we check this morning, the money was gone. You can check this also by the following:

Visit this site: <http://blockchain.info>

Use this account number and you can trace the funds to the final destination as noted here:

The account holder is sridhar raj avmtrading72@gmail.com and the scammer's email is **Daniel kalu ezikpe** danykalzy@gmail.com

The account holder's wallet address is attached. We have tracked the funds as follows:

Is there any way you can pay a visit to this Kalu Daniel who took the money and request that he return all the funds in this final account. If his software is only a scam then we want both amounts back. He will surely oblige if you pay him a visit, I am sure.
